This is an invaluable tool for the detection, prevention and investigation of serious crimes, complex investigations and difficult targets including identifying suspects and locating key evidence. It is also valuable in determining truthfulness of witnesses and their knowledge of the offence. Where a wiretap does not yield primary evidence of an offence, it may often yield secondary evidence that investigators may use to secure judicial authorizations like search warrants that ultimately yield primary evidence of the offence. In active kidnapping cases, the interception of private communications provides the ability to locate the suspect and victim before further harm may occur to the victim.

Each parcel will be offered for sale, subject to a reserve bid and to the reservations and conditions contained in the existing certificate of title.

The land is being offered for sale on an “as is, where is” basis, and the Village of Nampa makes no representation and gives no warranty whatsoever as to the state of the parcel nor its suitability for any intended use by the successful bidder.

The Village of Nampa may, after the public auction, become the owner of any parcel of land not sold at the public auction.

Terms: All bids must be accompanied by a certified cheque, cash or bank draft representing 15% of the bid, and all sales must be finalized within 30 days. Failure to do so will result in forfeiture of the deposit.

Redemption may be effected by payment of all arrears of taxes and costs at any time prior to the sale.

Dated at Nampa, Alberta, December 15, 2020.
